

THE COUNTY FEDERATION  
AND CIVIL DEFENSE  
by Boris Mandrovsky

On 7 Dec., 1961, the 20th anniversary of Pearl Harbor the Fairfax County Federation held a special county-wide meeting on Civil Defense. The audience read like a Who's Who of the county and of civil defense in Washington.

Dr. Harold Kennedy, County Public Health Director, described effects of, and countermeasures against nuclear attack. Mr. Adam Yarmolinsky explained the position of the Federal Government on Civil Defense. Carlton Massey, the County Executive, gave a run-down on the County Civil De-

fense program, while Anne Wilkins, appearing in her role as Chairman of the Civil Defense Committee of the Washington Metropolitan Regional Conference, outlined what the Metropolitan Area needs to do in order to mount an adequate Civil Defense Program.

Following this part of the program, a panel was formed, consisting of the four above speakers augmented by the following experts: Col. Victor Searle - Chemical and Biological Warfare, Dr. Walter C. Clowers - Health Mobilization, Dr. John F. Prominski - Physiological Effects of Nuclear Weapons, Dr. Alice Kiessling - Psychological Problems of Shelter Living, Dr. George Anton - Atmospheric Radiation and Fallout, Mr. Paul Wilkins - Physical Effects of Explosions. Panel members answered questions from the audience on a wide variety of problems related to Civil Defense.

It is impossible to summarize the material covered at the meeting which lasted until 11:30 p.m. However, the interest and enthusiasm of the audience made it obvious that this is only the beginning of a county-wide movement towards a serious Civil Defense effort which will grow in importance in the months ahead. My only regret is that, so far, no one in Pimmit Hills has shown sufficient interest in Civil Defense to come forward, for it is obvious that we shall need a Civil Defense Program on a community level.

## HILLS NEWSLETTER

JANUARY 1962

### 1500 Membership Goal Set by P.H.C.A.

#### President's Report...

The next meeting of the Association will be held at 8 pm on Tuesday, January 9th in the Pimmit Hills School. Please note the change to the second Tuesday of the month. This change is due to the proximity of the first Tuesday to New Year's Day. All future meetings will be held on the first Tuesday of the month.

The program for this meeting includes a discussion of the zoning hazards facing our community and the serious impact which it could have on the financial investments in our homes; a discussion of a social program which we are planning to hold in February; and, finally, but by no means unimportant, a discussion of the coming membership drive.

The remainder of this column will be devoted to a dis-

cussion of this last point and its importance to our problems.

Not infrequently, when a person is asked to join the Association, his retort is "What has the Association done?" I hope I can answer that question here and now. One of the answers is obvious in the fact that you are reading this article. The Newsletter is published 10 months of the year and is mailed to approximately one thousand seven hundred and fifty homes. It contains news items about many activities such as the Scouts, the various Churches serving our community, our County Government, the Teen Club and the PTA.

Publishing the Newsletter consumes many man-hours in typing, layout, organization, and phone calls in attempting to obtain the articles in time for publication. To this is

(Cont'd on Pg. 2)

**"Ask NOT What The ASSOCIATION Can Do for YOU"**

**"Ask Rather What YOU Can Do for YOUR Community"**

PRESIDENT'S REPORT from pg. 1  
 added innumerable hours of soliciting and drafting the advertisements which are essential to the publication, since it is self-supporting.

The Newsletter also contains articles on the activities of the Association within our own community. Of particular interest in this issue are items concerning Homes and Gardens and the entrances to Pimmit Hills; a community dance; safety problems in our area; the publication of a new Community Directory; the Fairfax County Federation of Citizen's Associations and zoning hazards.

In case some people believe the foregoing list is inadequate, I would like to point out that some of the accomplishments of the Association in past years include obtaining bus service; installation of traffic control and street signs within the area; assisting in summer recreation programs for the children; publishing community directories; a Japanese Beetle control campaign; and establishing a regular refuse pickup service.

I would hope that during the coming year, all of the projects outlined in this issue plus some new ones would be accomplished. Of prime importance at this time however, is zoning. Although this problem is thoroughly covered elsewhere, I would like to point out that a great influx of people in this immediate area will cause severe over-

crowding of our schools and our roads. To illustrate this latter point, one need only recall the snowstorms of last winter when it was impossible to use the Lisle Ave. exit. When this occurred, most of the traffic travelled the cross streets in the area and used the Pimmit Drive exit. Thus the problem affects everyone!

The Association has been preparing to meet this problem and a committee has attended every hearing of the Planning Commission. Very frankly, it is my personal opinion that the prevailing attitude of some of the adjacent landowners, the developers and even some members of the Planning Commission is "The Citi-

## TIME FOR A LINE?

By VERBA ADAMS

Have you, the readers of the Newsletter, ever given consideration to the amount of time and work that goes into preparing our paper????

The editor, who also does the work of the advertising manager, obtains all advertisements which pay for each issue. He also arranges the lay-out of copy and advertisements for printing, and occasionally, finds it necessary to write an editorial. All of the above entails a minimum of 30 hours a month. The editor willingly performs this community service; and in addition to his regular job, he attends night school. What more can one man give of himself?

The November issue of the Newsletter required 15 hours of typing to present the new format. Discounting time that is applied in preparing for publication; the greatest problem the editor has, is having the news turned in on time. After call is made to obtain articles, and yet, it's not until a few hours before

enough material is collected for the edition. If articles for publication are submitted by the 15th of each month, last-minute work would not be necessary.

The majority of people in the Hills take the Newsletter for granted. There are seldom new volunteers to help with the work. In order to publish, there must be news; but, it's very rare that anyone volunteers to write an article.

Anyone with news of interest to the community should contact the Newsletter Staff. Time will gladly be given, if needed, to put your news in publishable format. Contribute a few minutes of your time to help make the Newsletter a better community newspaper.

te Ayres, prop.— EL. 6-6328

103 CENTER STREET  
Behind McLean Fire House

zens be damned"!

What you can do about it is simple. This subdivision is the largest in the county next to Springfield. If, at the public hearings on the zoning plan (which incidentally will be held on January 18 and 25, 1962), the representative from the Association can state that he represents 1500 homeowners it will carry more weight than any other argument.

To accomplish this end a membership drive will be held between January 9 and 14. To contact 1700 homes within a five day period will be quite a feat in itself but it can be done very easily if we can get 100 volunteers. Won't you please contact one of the officers when you receive this

Newsletter and give us three or four hours of your time on one night?

Since we have to contact 1700 homes, time will prevent a real "sales pitch". Therefore your individual part in this drive will be to welcome the volunteer and to be prepared to join the Association. He will be 'happy to answer your questions but if you have any real gripes, problems or suggestions, I would like to suggest that you put them in writing and give them to him. I personally guarantee that all of them will be considered and an answer given.

A highly successful membership drive will prove beyond all doubt that Pimmit Hills means business!

## ALL-OUT MEMBERSHIP DRIVE SCHEDULED FOR JANUARY

The last meeting of the Executive Committee was largely devoted to a consideration of the coming Membership Drive. In order to insure a thorough and successful coverage of the more than 1700 homes, the Membership Committee has been busy mapping and planning and enlisting recruits for the actual canvassing.

More willing and able workers are needed for this tremendous undertaking! You can help!

Don't "leave it to George". Do call Earl Powell (TW3-8637) or Joe Griffin (TW 3-7056) and volunteer. We need you!

The Membership Drive will begin the night of the next general meeting, January 9, and continue through January 16.

The first step toward getting favorable consideration on questions of zoning in our area is to demonstrate to the County governmental authorities that our community is made up of citizens who are actively concerned with the proper planning and development of Fairfax County as a good place to live.

Do your part by joining the Citizens' Association, coming to meetings, contributing your ideas and time. If we all do as much as we can, we can and will accomplish a great deal.

Start now by volunteering to the Membership Committee to help canvass the Hills and put over this Membership Drive with a bang.

## SNOWBALL QUEEN

MISS BRENDA RAINES

Pimmit Hills Teen Club held their annual "SNOW BALL" dance on December 30, 1961 in the Ball Room (cafeteria) of the Pimmit Hills Elementary School amidst a colorful wintry setting.

Highlight of the evening was the crowning of this year's "SNOW BALL QUEEN" by Mr. Vernal L. Amott, president of the Senior Advisors Group, at the presentation of the queen bouquet of long stem roses. Miss Pamela Smith, last year's queen.

Miss Brenda Raines, daughter of Mr. and Mrs. Jason Raines, 1914 Howard Court, Pimmit Hills was crowned "SNOW BALL QUEEN" to reign over the year's social event.

Miss Raines is a 16 year old Junior at McLean High School where she participates as a "Majorette" for McLeans football teams. She has been active in the Pimmit Hills Teen Club for the past few years and is currently the Teen President of the Club.

The queens court consisted of a group of the Clubs choicest young ladies including: Miss Peggy Craft, daughter of Mr. and Mrs. Maurice W. Craft, 2121 Pimmit Drive, Miss Deidre Behnemann, daughter of Mr. and Mrs. Harold P. Behnemann, 415 Lisle Avenue, Miss Patricia Fay Diane Smith, daughter of Mr. and Mrs. B. E. Smith, 2415 Peabody Drive, along with Miss Jane Smith, Queen of the 1961 Harvest Moon Ball, Miss Kemp Newberry, Queen of the 1960 Harvest Moon Ball and Miss Diane Craft, Queen of the 1957 Harvest Moon Ball.

Theme for the decorations was "Frosty-the-Snowman", an artificial snowman who presided over the affairs of the evening from his snowy pedestal in the center of the hall, as he watched this year's

## DIRECTORY COMMITTEE NEEDS HELP by Verba Adams

There has been much discussion by the Executive Committee and the members attending the general meetings concerning a new telephone directory for the Pimmit Hills residents.

The most often asked question has been: Why has no revision to the directory been published since 1958???

During the spring of 1959, a committee compiled listings necessary for a new publication. Two people worked on the listings from eight o'clock until past midnight. This entailed confirming and placing in alphabetical order each resident in Pimmit Hills.

Others on the committee compiled information concerning the history of Pimmit Hills, Pimmit Hills Citizens' Association, Fairfax Federation of Citizens' Associations, County Government, Schools, Churches, local organizations, and general information useful to all residents.

At this point all progress stopped!! The committee member, in charge of advertising, was transferred from the area. This created a vacancy which could not be filled.

Two years have passed! Although many calls have been received from people wanting a directory, still no one has volunteered to be advertising manager. We, the committee, can do nothing until someone is willing to offer to assist

in that capacity. If those of you who want a directory will help locate someone who will take on this responsibility, the directory can be published in a matter of weeks.

Since so much time has elapsed all the listings and most of the civic information will have to be redone. The committee members have agreed to do this extra task as soon as the people in the Hills show that they really want a directory by offering to help.

The Association needs new members who are willing to devote part of their time to the community. A small handful of people cannot do the work necessary to complete community projects. There should be a better representation of the community in the Association. Those who will join and devote part of their time to working for the community are greatly needed.

Less criticism and complaining and more constructive thinking and acting will help the Association, the community, and most of all, you, the residents of Pimmit Hills.

## APARTMENTS ON MAGARITY ROAD???

by John Shacochis

If you are looking for an answer to that question, then you must do something about it. It's going to take effort on the part of everyone in the area, if the pressure from the speculators is going to be reversed - not a lot of effort - just a 3 cent post card's worth.

If each household in the area sends a post card to the Fairfax County Planning Commission between now and January 18, we feel sure that we can make our desires receive some consideration.

Of course, if you don't care, the alternatives are something you are not going to enjoy living with — overcrowded schools, jammed roads, crowds at the proposed park, and even more limited recreational facilities for all.

A committee of Pimmit Hills Civic Association members have been attending Planning Commission meetings for the past two months.

We have watched development of the "Tyson's Corners Plan" which was printed in the November issue of this Newsletter. This is the plan that will be aired publicly before the Commission on January 18th and 25th.

We have been assured that the committee will be heard. However, our voices will be stronger if each of you invests five minutes of your time and a 3 cent post card

and requests that the plan which is adopted prohibit any apartments on Magarity Road.

It is obvious that there is considerable pressure from developers to have the Commission approve apartment development in the area. We can't let that happen!!

We don't have to remind you how difficult it is now to get out of Pimmit Hills via Lisle Avenue or Magarity Road every time we have a snow storm. Can you imagine what it will be like if the population density is doubled?

There are numerous zoning applications pending at the present time. They have been deferred until the Commission has had its public hearings on the "Tyson's Corners Plan".

There are others pending that would upset a proposed plan for development along Route 7. Both of these plans have a vital bearing on whether or not Pimmit Hills continues to be the pleasant place to live in that it is now, or becomes a boxed-in slum area.

You can help prevent its deterioration. Get that post card into the mail today. Address it to: Chairman, Fairfax County Planning Commission, Fairfax County Court House, Fairfax, Va.

**LEWINSVILLE NOTES**  
by Sheila Artz

At its last meeting, the Lewinsville PTA voted to sponsor a Cub Scout Pack. During December, a series of three training and organizational meetings with films and discussions for the parents, was held at the school. There are still vacancies for committee members, leaders and den mothers. Boys from 8 through 10 are eligible to join. Pack meetings will be held once a month at the school. Dates and times will be announced later. Anyone interested may obtain further information by calling Mr. Hansen (EL6-6054).

\*\*\*\*\*

A group of children from the 2300 block of Pimmit Drive and Gilson went carolling on Christmas Eve. We enjoyed the music and hope that this idea will spread throughout the entire community for next year.

\*\*\*\*\*

The PTA meetings for 1962 are presently scheduled for 15 January, 19 March, and 21 May.

**HOME SAFETY**  
by Kathie Ritchey

Yearly, carelessness in the home is the cause of many accidents. A little foresight could help prevent many tragedies and hours of suffering.

Those kitchen utility rooms in many Pimmit Hills homes can be a fire trap, and as such, combustibles should never be stored in them. Such items as mops, ironing boards, cloths, papers, and flammable liquids are dangerous. I know, personally, of a number of homes that have had utility room fires because of improper storage. My own was one of them.

Electrical outlets should never be overloaded. Many of our homes are not wired with BX cabling, so we should be careful not to put heaters, irons and other items using a lot of electricity on the same outlet or extension cord. A heavy duty extension cord should be used in place of a light weight extension cord for irons, heaters, waffle irons and such. Also, it is safer to use 15 amp fuses in

place of 20 or 30 amps. Attics should not be a catch-all for the junk one has. These attics get mighty hot in the summer and it is not at all impossible for it to combust in the intense summer heat. The more junk stored, the more fuel for a fire.

Curtains should never be hung immediately over the stove, where the window is located in back of the stove. It is safer to use a simple ruffle at the top of the window with nothing hanging close to the stove. In case of a grease fire on the stove, low hanging curtains would be a cinch to feed a fire.

It is advisable to put a cut-off valve above the water heater. If the water heater in your home is still the original one, it might be due to cut loose one of these days, (wear out and start leaking badly). Then comes a deluge. Before you could get to the main water valve, you could have a real serious flood in your house. But, if you could immediately turn a cut-off valve adjacent to the heater you would have no problems of flooding.

**HOUSE AND GARDEN**  
by Doris Langland

If this were, as many think it is, a "Garden Club" rather than a committee on the home and garden, ours would be no small task. Anything done to landscape, beautify, and clean up Pimmit Hills would, for the most part, be ours to do. It is ours to do.

The first and most important task is one about which there is the most talk and the least action—the cleaning up and re-landscaping of our two front entrances on Route 7 (Pimmit Drive and Lisle Ave.).

Another first is the cleaning up of the shopping center. Still another is the already-begun Japanese Beetle program.

If you do not live on Lisle Ave., or Pimmit Drive, perhaps you seldom use Route 7. You may not care how they look. You should care. The reasons are simple. As the front yard is to a house, so is the front entrance to a community. We, as people, are often judged by our homes, and a community may be so judged by outsiders—prospective buyers—by the first appearance at the front entrance. It can determine the sort of people we get for neighbors. The appearance at the front entrances can show deterioration and growth of slum in a community, or it can show care and maintenance. Whichever it shows will influence the value of property within the community.

This committee represents

only one spoke of a large wheel—the rim of which is our community; the hub our Citizens' Association.

Though the programs I have outlined pertain mostly to the out of doors and gardening, we are not just a "Garden Club". These are only a few of the services we can offer. We are equally interested in serving individuals in their homes. We can do this by advising and encouraging: 1. home improvements (getting paint discounts for our members); 2. home maintenance (Oct. Newsletter); 3. beautification of the home (the Christmas Decorating Contest); 4. home safety (Jan. or Feb. Newsletter). These are a few examples of what we have done and are doing. There are many more things we can do.

On this committee we have a place for everyone from cook to handiman, from gardener to plumber. However, we would especially welcome those of you who, like us, lack experience, yet are willing to work with us to keep this wheel, our community, in top running order.
